Docherty delivers!

57 years of experience
in flues, chimneys and
sustainable heating
solutions

The Docherty advantage you can count on

One stop solution

We position ourselves as a business partner for every customer's success by providing a one-stop solution including flues, chimneys, wood burning stoves, heating appliances, manufacture of bespoke components, specialist knowledge and the latest industry training.

Quality products

We stock the widest range of quality flues, chimneys and wood burning stoves.

Self-manufactured products include flexible flue liner for gas, oil and solid fuel, vitreous enamel and stainless steel connecting flues and a multitude of terminals, adaptors and accessories.

Knowledgeable staff

We employ a team of dedicated sales professionals, all comprehensively trained to exacting standards and offering the very best pre-sales technical and practical support that you can rely on whatever the scale and nature of your project.

Branch network

Our network of 9 branches across the UK allow same day access to 1000's of products. Next day delivery on most stocked items.

Delivery

We offer the following delivery options free of charge:

- ✓ Delivery of all orders on our own vans as part of our daily route
- ✓ Delivery of orders above £150 excl. VAT via carrier service
- ✓ Collection from the branch

Please note that a **minimum order value surcharge will incur for orders under £150 excl. VAT delivered by carrier service.**

This is £10 on small items and £20 on larger items.

Custom solutions

Custom Products are an unsurpassed Docherty advantage. Our dedicated facility in Birmingham manufactures custom parts precisely to your specifications or drawings.

For assistance, please speak to your local branch or Area Sales Manager

Marketing support

As a manufacturer we understand that our customers have different needs depending on what part of the industry they are from. In view of this we provide a versatile range of support materials - such as brochures, product datasheets, hi-res images, banners, posters - which can be tailored to meet your individual needs, so you can promote our products in any medium you choose.

For more information, please speak to your Area Sales Manager or email our Marketing team at marketing@docherty.co.uk

Industry training

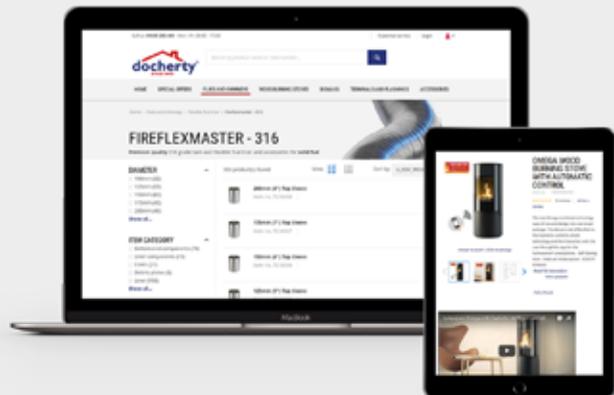

We offer specialist training courses including HETAS approved training and in-house developed one day practical courses for installers from a purpose-built facility in Ripley, Derbyshire and the NACS training centre in Stone, Staffordshire.

View our upcoming courses at www.surefire.org.uk

Online account

We provide you with an on-line catalog where you can:

- ✓ Browse our comprehensive product range
- ✓ View your trade prices and order 24/7 from any device
- ✓ View past order information, posted invoice details, access favourites lists and order templates.

Register for an online account now at www.docherty.co.uk/order-online

*Available to account customers only

We're the leading UK manufacturer and distributor of flue and chimney systems and heating appliances

Fireflexmaster

Twin wall stainless steel flexible flue liner

Fireflexmaster is available in a comprehensive range of diameters suiting all applications, from 100mm to 350mm. Supplied in drums to enable installers to cut the desired length as required and also in pre-cut packs to reduce labour cost and time.

- Standard 316L variant with 10 year conditional warranty
- Superior 904L variant with 20 year conditional warranty

Diameter range (mm): 100, 125, 150, 175, 200
Inner liner material: 0.1mm grade 316L stainless steel
Outer casing material: 0.1mm grade 316 stainless steel
Joint method: Triple lock joint system
Designation: BS EN 1856-2 T600 N1 D VmL50022 G

Flexmaster

Flexible flue liner for gas and oil

Flexmaster is a stainless steel flexible liner which, when installed into a masonry chimney produces a continuous and unbroken flue from the appliance to the flue outlet. This prevents flue gases escaping through disintegrating brickwork and provides the optimum flue diameter.

Diameter range (mm): 100mm to 559mm

Material: Grade 316L stainless steel

Designation: BS EN 1856-2 T300 N1 D Vm L40010 O(25)
BS EN 1856-2 T300 N1 W Vm L40010 O(25)

Max operating temp: 300°C negative pressure

Chimwrap

Insulating sleeve for flexible flue liners

The inner lining of Chimwrap is manufactured using long strand textile grade borosilicate glass fibre, which is mechanically consolidated to form a felt product.

This will not only give a peak operational temperature of 550°C but is also capable of withstanding severe thermal shock.

- The product is stable in arduous environments and does not accelerate corrosion of metallic components and contains low resins and binder that can volatilize.
- The outer fabric is manufactured from e-glass cloth, which is low in resin and binder, this reduces smoke development and the prevention of volatilization.

STANDARD

Chimwrap Liner Wrap 5" and 6" - 1 metre length

£64.52 CW1155

Chimwrap Liner Wrap 7" and 8" - 1 metre length

£80.14 CW1200

Excelsior

Twin wall insulated chimney system

Excelsior is a twin-walled stainless steel chimney system designed and approved for use with all fuels including gas, oil, wood and approved solid fuels.

* Only suitable for dry non-condensing applications

Diameter range (mm): 125mm, 150mm, 180mm, 200mm

Inner liner material: 0.5mm grade 316L stainless steel

Outer casing material: 0.5mm grade 304 stainless steel

Insulating material: 25mm mineral wool

Joint method: Male spigot, female socket twist lock and locking band

Designation: BS EN1856-1 T450 N1 D Vm L50050 G50

MF

Twin wall insulated chimney system

MF is a universal multi-fuel and multifunctional chimney suitable for internal and external applications. It can be used for high temperature applications, but also because of the integral silicone sealing ring, it can be applied to condensing and positive pressure installations. It is suitable for use at continuous operating temperatures of 600°C for negative pressure applications and 200°C for positive pressure applications.

Diameter range (mm): 100mm, 130mm, 150mm, 180mm, 200mm, 250mm, 300mm, 350mm, 400mm, 450mm, 500mm & 600mm
Inner liner material: 0.4mm grade 316L stainless steel
Outer casing material: 0.5mm grade 304 stainless steel
Insulating material: 25mm mineral wool – 100mm to 400mm
 37.5mm mineral wool – 450mm to 600mm
Joint method: Male spigot, female socket push fit and locking band
Designation: EN 1856-1 T200 P1 W V2 L50040 O10

SFL Nova SM

Twin wall insulated chimney system

Nova has been specifically designed to meet the requirements for multi-functional applications serving a variety of fuels. Whether serving a traditional negative draught appliance, or a modern high efficiency condensing appliance, Nova offers the ideal solution. With a wide range of components, together with a multi-barb quick lock jointing system, Nova offers the ultimate in ease of installation, quality and functionality.

Diameter range (mm): 100mm, 130mm, 150mm, 180mm, 200mm, 250mm, 300mm and 350mm

Inner liner material: 0.5mm grade 316L stainless steel

Outer casing material: 0.5mm grade 304 stainless steel

Insulating material: 25mm mineral wool

Insulating material: 250 Kg/m³

Joint method: Twist lock coupler and locking band

Designation: BS EN 1856-1 T450 N1 D V2 L50050 G(50)
BS EN 1856-1 T200 P1 W V2 L50050 O(50)

SFL IL

Twin wall gas vent

IL is a twin wall insulated pre-fabricated domestic gas vent that has been used in the UK for over 25 years, having built a reputation for quality and reliability.

The IL gas vent is designed for naturally aspirated domestic gas fired appliances with a draught hood / diverter and where the chimney is required to operate under negative pressure and dry conditions and the flue gas temperatures will not exceed 250°C.

Diameter range (mm): 100mm, 127mm, 150mm
Inner liner material: 0.3mm Aluminium
Outer casing material: ZaluTite
Insulating material: 6mm Air Gas
Insulating material: 250 Kg/m³
Joint method: Push fit and twist Lock
Designation: BS EN 1856-1 T250 N1 D Vm L11030 O(50)

Technical support

Our employees have a wealth of technical knowledge and understanding of chimney design that you can rely on whatever the scale or nature of your project

Metaloterm US

Concentric flue

The Metaloterm US system is a modular concentric balanced flue system, made of stainless steel which combines air inlet and flue. US is suitable for high temperature, non-condensing applications with flue gases in negative pressure. It can be applied on all types of balanced flue gas-fired stoves.

Diameter range (mm): 100mm, 130mm

Inner liner material: 0.4mm grade 304L stainless steel

Outer casing material: 0.4mm grade 304L stainless steel

Joint method: Push fit and locking band

CE approved: Yes

QSW 316

316 grade stainless steel single wall connecting flue

Proheat QSW is a quality single wall connecting flue system designed and approved for use with all fuels including gas, oil, wood and approved solid fuels.

Diameter range (mm): 127mm, 152mm, 177mm, 203mm, 228mm, 254mm
Inner liner material: 1.0mm grade 316L stainless steel
Joint method: Push fit and locking band
Designation: BS EN 1856-2 T600 N1 D 3 G(800)

ME

316 grade stainless steel single wall connecting flue

ME is a modular single wall flue/chimney system, made of stainless steel with a high temperature sealing ring. It is suitable for both high and low temperatures, non-condensing and condensing applications with flue gases in positive and negative pressure. It can resist a chimney fire.

Diameter range (mm): 80mm, 100mm, 110mm, 130mm, 150mm, 180mm, 200mm, 250mm, 300mm, 350mm, 400mm

Inner liner material: 0.6mm grade 316L stainless steel

Joint method: Push fit and locking band

CE approved: Yes

Draught Regulators

Draught regulators from German manufacturer Kutzner + Weber provide optimum chimney draught and can significantly reduce energy consumption.

The ZUK draught regulator has a relief damper that protects the chimney from explosion or implosion in the flue. This is a strongly recommended safety feature for commercial coal and biomass installations.

Guardmaster

Galvanised, Stainless Steel & Nylon Coated terminal guards, designed to protect flues from damage when installed at low level and to prevent any possible contact with the terminal. Available in rectangular, square and round options. Stainless steel or coated guards are recommended for use with condensing appliances.

Hook bolt or band/strap - Natural	£93.61	10-BECSSN

Masterflash

The flexible design of Masterflash roof flashings meets virtually all roofing needs. Made of EPDM or Silicone, the flashings are compounded specifically for maximum resistance to weathering due to ozone and ultraviolet light. Their easy on-site customization allows for easy installation in usually five minutes, and the flexible soft aluminum base is designed to form a seal on most panel configurations and roof pitches regardless of pipe location.

Silca Insulating Materials

The continuous trend towards space-saving construction of fireplaces and tiled stoves requires thinner insulation boards providing the same thermal insulation. This can be achieved with SILCA® 250KM, which serves as both fire protecting wall and thermal insulation in only one construction material, and not only for this reason guarantees more favourable results than comparable products.

A SILCA 250MM BOARD

Format 1000x625x40mm	£37.26 SKM_250_ST_00000042

Kemp

Stove & Fireplace Equipment

French manufacturer Kemp produces innovative products for the fireplace and stove market. Their three main ranges are:

- Architecture heat registers that complements inset fires that wish to circulate the heated air from the construction void
- Fresh-air intake kits allow easy connection of fresh air to a wood and pellet stove
- Wall heat shields to protect the walls from heat and blackening

PERFORMANCE KIT

125mm diameter Fresh-Air Intake Kit	£110.86 KFLEX125
100mm diameter Fresh-Air Intake Kit	£110.86 KFLEX100
100 to 40 mm diameter tiered reduction attachment	£36.90 AIR10040

UNIVERSAL KIT

100 to 40 mm Hermetically-Sealed Universal Fresh Air-Intake Kit	£147.57 RDP40100
